WORK EXPERIENCE

ARCHITECTURAL ASSOCIATE @ PACIFIC DESIGN GROUP

January 2017 - Present

At Pacific Design Group I've had the privilege of working on most aspects of a building project. I've worked on a wide range of projects from residential renovations to commercial master planning. My weekly tasks ranged from: Site visits, creating as-builts, creating preliminary plans, working on construction documents, dealing with city submittal and consultants, and setting up construction bids.

FABRICATION INSTALLATION @ STUDIO 7ARCHITECTURE & ALLIED ARTS

December 2014 - January 2015

Set design project for the 2015 Santa Barbra Film Festival. The project involved a team of Architecture students to Design/Build the entrance to the film festival. The project exposed us to fundamental phases of a Design/Build project, ranging from Designing the structure, financing, gathering materials, construction, transporting, and Installing on site.

EDUCATION

CALIFORNIA STATE POLYTECHNIC UNIVERSITY, POMONA - COLLEGE OF ENVIRONMENTAL DESIGN

August 2018 - May 2022

At Cal Poly Pomona the program demanded that we understand the fundamentals of the built environment and its process, but as well explore ideas set before us and reinterpret them allowing us to create something incredibly new. Cal Poly used its rich creative economy and cultural capital of Southern California and its geographical advantage as a global gateway for trade and ideas.

ORANGE COAST COLLEGE

August 2014 - May 2018

At Orange Coast College I was introduced to Architectural Design. The Architectural Technology program at Orange Coast College is amongst the best there is in California. The program offers courses in design, building materials, construction documents, design graphics, and computer-assisted design and drafting. Here at Occ I began developing my hands on and technical skills in which I could use moving forward as my tools of design.

HUNTINGTON BEACH HIGH SCHOOL

August 2010 - May 2010

My experience through at HBHS exposed me to a well standard general education and provided the social skills necessary in developing relationships. I also competed in Varsity Track and Cross Country all 4 years throughout my time at HBHS. One of the most important things I take from my time there was the ability to work in a team environment.
